

Open Microsoft Outlook

Click on Tools  
Go to  
Email Accounts

Highlight Skyafrika  
Click on Change

Click on Servers  
**Change the following**  
Incoming Mail Server:  
mail.skyafrika.co.za  
Outgoing Mail Server:  
smtp.skyafrika.co.za

**NB**  
**IF your outgoing mail server is**  
**smtp.saix.net**  
**leave it as is**

Change your account name to  
**“youruser”@skyafrika.co.za**  
Enter your Password

Please fill in form to request password  
on support page.

Under the More setting please mark under  
Outgoing mail server.

“My server requires authentication”  
After all steps your mail should work.
