

# Outlook Express

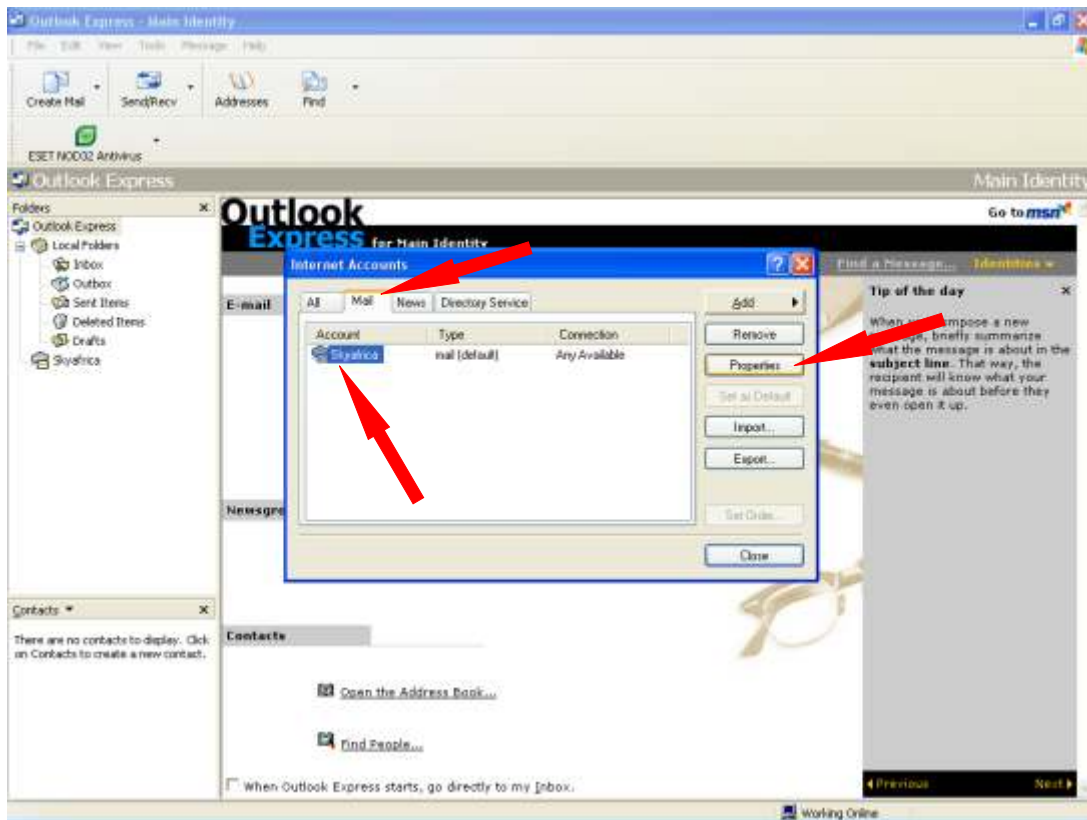

Open your outlook express

Click on Tools

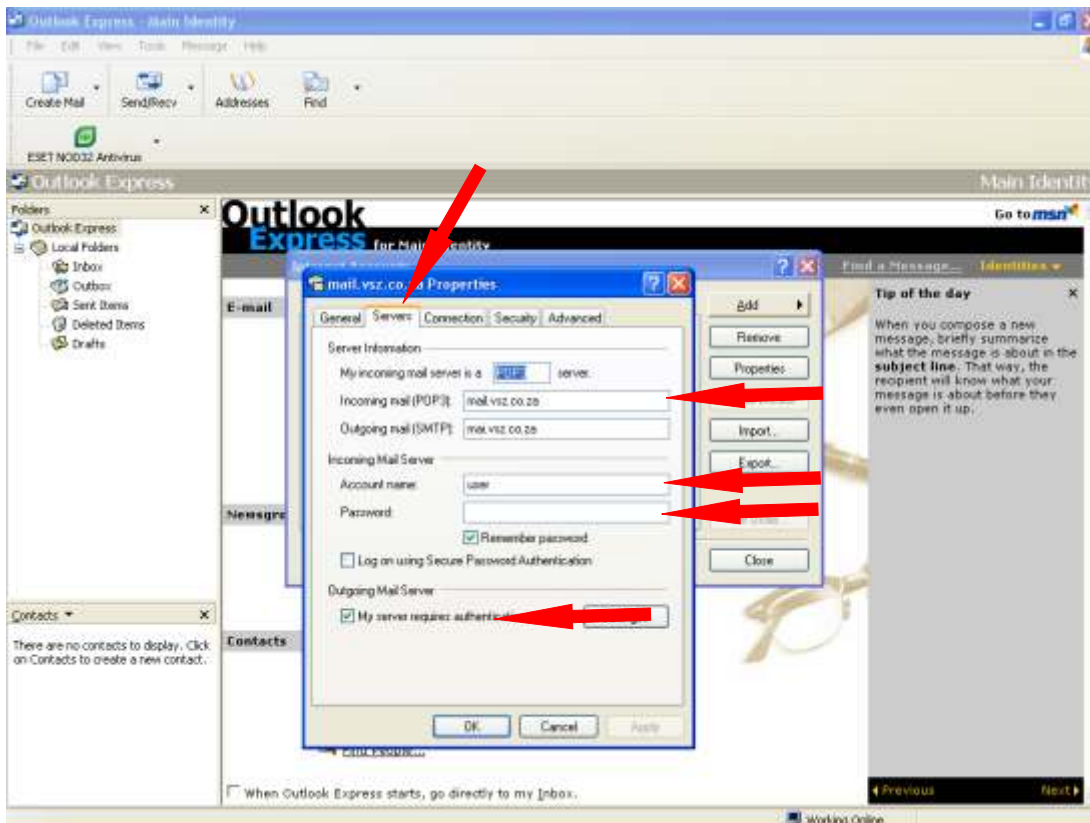

Then move to Accounts

Click on Mail

Highlight Skyafrika

Click on properties on the Right

Click on Servers

**Change the following**

Incoming Mail Server:

mail.skyafrika.co.za

Outgoing Mail Server:

smtp.skyafrika.co.za

**NB**

**If your outgoing mail server is**

smtp.saix.net

leave it as is

Change your account name to

"youruser"@skyafrika.co.za

Enter your Password

Please fill in form to request password on support page.

At Bottem please ensure that

"My server requires authentication" is Clicked

After all steps your mail should work.
